Subject: Label Amendment – Update WSP mixing and loading language
Product Name: Acetamiprid 70 WSP Insecticide
EPA Registration Number: 8033-26
Application Date: 9/26/2017
Decision Number: 537674

Dear Mr. Perdomo:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2
EPA Reg. No. 8033-26
Decision No. 537674

with FIFRA section 6. If you have any questions, please contact Paul Di Salvo by phone at 703-347-0322, or via email at disalvo.paul@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Paul Di Salvo" followed by a small flourish.

Venus Eagle, Product Manager 01
Invertebrate and Vertebrate Branch 3
Registration Division (7505P)
Office of Pesticide Programs

Enclosure: Stamped label

ACCEPTED
 08/06/2019
 Under the Federal Insecticide, Fungicide
 and Rodenticide Act as amended, for the
 pesticide registered under
 EPA Reg. No. 8033-26

Acetamiprid 70 WSP Insecticide

Intended Only for Sale to, and for Use and Storage by Pest Management Professionals

ACTIVE INGREDIENT:

Acetamiprid..... 70.0%

INERT INGREDIENTS 30.0%
 100.0%

EPA Reg. No. 8033-26

EPA Est. No. _____

CONTAINS ___ x 2.40 OZ WATER SOLUBLE PACKETS PER CASE

Total Net Contents: ___ Ounces

**Stop - Read the label before use.
 Keep out of reach of children.**

CAUTION

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

(If you do not understand the label find someone to explain it to you in detail.)

FIRST AID	
If swallowed	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor for treatment advice. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Have person sip a glass of water if able to swallow. • Do not give anything by mouth to an unconscious person.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
HOTLINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For MEDICAL and TRANSPORTATION Emergencies Only Call CHEMTREC at 1-800-424-9300.	
NOTE TO PHYSICIAN	
There is no specific antidote. All treatment should be based on observed signs and symptoms of distress in the patient. Overexposure to materials other than this product may have occurred.	
For Information Regarding the Use of this Product Call 212-490-0350.	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling. Keep out of reach of children and domestic animals.

Remove contaminated clothing and wash before reuse. Keep children or pets away from treated area until dry.

Personal Protective Equipment

Pesticide handlers (mixers, loaders, and applicators) must wear long-sleeved shirt and long pants, socks, shoes, and chemical resistant gloves made of: barrier laminate, butyl rubber ≥ 14 mils, nitrile rubber ≥ 14 mils, neoprene rubber ≥ 14 mils, natural rubber ≥ 14 mils, polyethylene, polyvinyl chloride (PVC) ≥ 14 mils, or viton ≥ 14 mils

After the product is diluted in accordance with label directions for use, shirt, pants, socks, shoes and chemical resistant gloves made of: barrier laminate, butyl rubber ≥ 14 mils, nitrile rubber ≥ 14 mils, neoprene rubber ≥ 14 mils, natural rubber ≥ 14 mils, polyethylene, polyvinyl chloride (PVC) ≥ 14 mils, or viton ≥ 14 mils are sufficient. In addition: all pesticide handlers must wear protective eyewear when working in a non-ventilated space.

ENVIRONMENTAL HAZARDS

This product is toxic to bees, birds, fish, and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters, unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

IMPORTANT: Read this product label before using Acetamiprid 70 WSP Insecticide.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product can be used to control ants (excluding red imported fire ants, harvester ants, pharaoh ants, and carpenter ants) and a range of other pests, outdoors (on/around buildings) and perimeters. This product kills termites on contact, including workers and winged reproductive forms.

Instructions for Using Water Soluble Packages

Directly into Spray tanks:

Water Soluble Packages (WSPs) are designed to dissolve in water. Agitation may be used, if necessary, to help dissolve the WSP. Failure to follow handling and mixing instructions can increase your exposure to the pesticide products in WSPs.

Handling Instructions

Follow these steps when handling pesticide products in WSPs.

1. Mix in spray tank only.
2. Handle WSP(s) in a manner that protects package from breakage and/or unintended release of contents. If package is broken, put on PPE required for clean-up and then continue with mixing instructions.

3. Keep the WSP(s) in outer packaging until just before use.
4. Keep the WSP dry prior to adding to the spray tank.
5. Handle with dry gloves and according to the label instructions for PPE.
6. Keep WSP intact. Do not cut or puncture WSP.
7. Reseal the WSP outer packaging to protect any unused WSP(s).

Mixing Instructions

Follow the steps below when mixing this product, including if tank mixed with other pesticide products. If being tank mixed, the mixing directions 1 through 9 below take precedence over the mixing directions of the other tank mix products. WSPs may, in some cases, be mixed with other pesticide products so long as the directions for use of all mixed products do not conflict. Do not tank mix this product with products that prohibit tank mixing or have conflicting mixing directions.

1. If a basket or strainer is present in the tank hatch, remove prior to adding the WSP to the tank.
2. Fill tank with water to approximately one-third to one-half of the desired final volume of spray.
3. Stop adding water and stop any agitation.
4. Place intact/unopened WSP(s) into the tank.
5. Do not spray water from a hose or fill pipe to break or dissolve the WSP(s).
6. Start mechanical and recirculation agitation from the bottom of tank without using any overhead recirculation, if possible. If overhead recirculation cannot be turned off, close the hatch before starting agitation.
7. Dissolving the WSP(s) may take up to 5 minutes or longer, depending on water temperature, water hardness and intensity of agitation.
8. Stop agitation before tank lid is opened.
9. Open the lid to the tank, exercising caution to avoid contact with dusts or spray mix, to verify that the WSPs have fully dissolved and the contents have been thoroughly mixed into the solution.
10. Do not add other allowed products or complete filling the tank until the bags have fully dissolved and pesticide is thoroughly mixed.
11. Once the WSP have fully dissolved and any other products have been added to the tank, resume filling the tank with water to the desired level, close the tank lid, and resume agitation.
12. Use the spray solution when mixing is complete.
13. Maintain agitation of the diluted pesticide mix during transport and application.
14. It is unlawful to use any registered pesticide, including WSPs, in a manner inconsistent with its label.

Restrictions:

This product is to be applied only as a crack and crevice spot spray.

Do not apply to areas beyond 3 feet from the foundation of the structure.

Do not use as a space spray.

This product is not for broadcast use on lawns and turf and is to be applied only as a crack and crevice/spot treatment.

Do not allow people or pets to contact contaminated areas or to reoccupy contaminated areas of the structure until the clean up is completed.

Do not permit humans or pets to contact treated areas until spray has dried.

Do not plant for the purpose of consumption, edible plants into the treated areas of soil.

Not for use in and around barns, stables, paddocks, grazing areas, feed lots or other similar areas used for housing, boarding, and/or rearing animals.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes

Product Information

Controls	Ants (excluding red imported fire ants, harvester ants, pharaoh ants, and carpenter ants) General Household Pests
Also Kills	Termites <ul style="list-style-type: none"> ▪ Kills workers and winged reproductive forms of termites present at the time of treatment. ▪ For localized use only
Use Rates	Use a 0.05% to 0.1% solution depending upon pest type. Refer to specific use directions within this label.
Finished Gallons	Each 2.4 ounce Water Soluble Packet makes 25 finished gallons of 0.05% solution
Re-Application	Retreat as needed to maintain effectiveness
Handling	Keep water-soluble packets in this container and store in a cool dry place but not below freezing (32°F). Do Not Remove Packets From Container Except For Immediate Use.
For More Information Regarding the Use of this Product Call 212-490-0350.	

Mixing Table for Acetamiprid 70 WSP Insecticide

Use a 0.05% solution to control general household pests. Use a 0.1% solution to kill termites.

Gallons of Finished Solution Desired	Number of Acetamiprid 70 WSP Insecticide Packets Needed	
	0.05% Solution	0.1% Solution
25	1	2
50	2	4
100	4	8
Packaging	<ul style="list-style-type: none"> ▪ Each envelope contains water-soluble inner packets of Acetamiprid 70 WSP Insecticide. ▪ Do not allow packets to become wet prior to adding to the spray tank. ▪ Rough handling may cause breakage. ▪ Reseal envelope for packet protection. 	
To Prepare a Spray Mixture	<ul style="list-style-type: none"> ▪ Open the envelope and drop the required number of unopened water-soluble packets into the spray tank while filling with water. ▪ Operate the agitator while mixing. ▪ Cooler water temperatures increase the time needed for the WSP to dissolve completely. 	
Notes	<ul style="list-style-type: none"> ▪ Water-soluble packets should not be used with products or in a tank that may contain boron or release free chlorine. ▪ Use of chlorinated water is acceptable. 	

Termites (Outdoors)

This product will kill workers and /or winged reproductive forms of termites present at the time of application only. Application of this product will not provide structural protection nor substitute for mechanical alteration, soil or foundation treatment with termiticide. This product is not to be used as sole protection against termites, as it is not intended for use for elimination of termite infestations nor for protection against future infestations. A professional inspection is recommended.

Use Rate	To kill termites on contact in localized areas apply a 0.1% Acetamiprid 70 WSP Insecticide solution. Retreat as needed to maintain effectiveness.
Where to Apply	Apply as a pinstream, spot, or crack and crevice spray on the outside of buildings, porches, wooden decks and patios, wooden fences around buildings, window frames, doorways, foundations, eaves, patios, garages, and other building where you may find these pests. Spray infested areas until thoroughly wet, avoiding dripping and runoff.

General Household Pests – Outdoor Use On/Around Buildings and Perimeters Within 3 Feet of the Structure																
Use Rates	Use a 0.05% solution for pest control. Maximum control is generally achieved using the following procedure: <ul style="list-style-type: none"> o Treat non-porous surfaces with low volume applications using the 0.05% solution and applying this solution at the rate of one gallon per 1,000 square feet o Treat the trunks of trees within the building perimeter that have ant trails, or upon which ants are foraging. Apply solution to thoroughly wet the bark from the base of the tree to as high as possible on the trunk o Treat porous surfaces with high volumes 															
Pests	<table border="0"> <tr> <td>Ants*</td> <td>Firebrats</td> <td>Springtails</td> </tr> <tr> <td>Beetles</td> <td>Flies**</td> <td>Sowbugs</td> </tr> <tr> <td>Boxelder Bugs</td> <td>Millipedes</td> <td></td> </tr> <tr> <td>Crickets</td> <td>Pillbugs</td> <td></td> </tr> <tr> <td>Earwigs</td> <td>Silverfish</td> <td></td> </tr> </table> <p><i>*excludes red imported fire ants, harvester ants, pharaoh ants, and carpenter ants</i> <i>** common vinegar flies (Drosophila spp.), Phorid flies, cluster flies, Sphaerocerid flies, flesh flies, and bottle flies, only.</i></p>	Ants*	Firebrats	Springtails	Beetles	Flies**	Sowbugs	Boxelder Bugs	Millipedes		Crickets	Pillbugs		Earwigs	Silverfish	
Ants*	Firebrats	Springtails														
Beetles	Flies**	Sowbugs														
Boxelder Bugs	Millipedes															
Crickets	Pillbugs															
Earwigs	Silverfish															
Where to Apply	<p>Apply as a pinstream, spot, or crack and crevice spray or foam to areas where pests hide or forage: around buildings, porches, screens, doors, window frames, eaves, patios, areas immediately adjacent or around private homes, duplexes, townhouses, condominiums, house trailers, apartment complexes, carports, garages, fence lines around structures, storage sheds, and other residential and non-commercial structures where pests are found. For best results on ants, locate and treat ant nests and trails and apply a barrier treatment as described in this section.</p> <p>Ants tunneling in the soil require a drench or injection of solution or foam at intervals of 8 to 12 inches. Establish a uniform vertical barrier at the edges of walls, driveways or other hard surfaces where ants are tunneling beneath the surfaces.</p> <p>Do not apply to areas beyond 3 feet from the foundation of the structure.</p>															
Barrier Treatments	To help prevent infestation of buildings, apply to a band 3 feet wide around and adjacent to the building. Also, treat the building foundation to a height of 2 to 3 feet. Apply as a coarse spray to thoroughly and uniformly wet the band area, using approximately 6 gallons of spray mix per 1,000 square feet.															

GENERAL PRECAUTIONS (For Outdoor Use Only)	
When treating adjacent to an existing structure, the applicator must check the area to be treated, and immediately adjacent areas of the structure, for visible and accessible cracks and holes to prevent any leaks or significant exposures to persons occupying the structure. People present or residing in the structure during application must be advised to remove their pets and themselves from the structure if they see any signs of leakage. After application, the applicator is required to check for leaks. All leaks resulting in the deposition of insecticide in locations other than those prescribed on this label must be cleaned up prior to leaving the application site.	
Do not contaminate public and private water supplies.	
Use anti-backflow equipment or an air gap on filling hoses.	
Consult State, Federal or local authorities for information regarding the approved treatment practices for areas in close proximity to potable water supplies.	

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Do not store below freezing (32°F). Exposure to moisture or excessive handling of water-soluble packets may cause breakage. Store water-soluble packets in original container and out of reach of children, preferably in a locked storage area. Do not store in or around home. Never transfer this product to another container for storage. Handle and open container carefully. Do not cut water-soluble packets when opening. If container is leaking or material spilled for any reason or cause, carefully sweep material into a pile. Refer to PRECAUTIONARY STATEMENTS on label for hazards associated with the handling of this material. Dispose of pesticide as directed below. In spill or leak incidents, keep unauthorized people away. You may contact the CHEMTREC for decontamination procedures or any other assistance that may be necessary. Call CHEMTREC at 1-800-424-9300.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site (in the treatment area) or at an approved waste disposal facility. Contamination with product will render water, food, or feed unfit for human or animal consumption.

Container Disposal: Do not use carton in connection with food, feed or drinking water. The empty wrappers may be disposed of in the trash. After removing all PVA packets, the carton may be disposed of in the trash.

Spills: When treating adjacent to an existing structure, the applicator must check the area to be treated, and immediately adjacent areas of the structure, for visible and accessible cracks and holes to prevent any leaks or significant exposures to persons occupying the structure. People present or residing in the structure during application must be advised to remove their pets and themselves from the structure if they see any signs of leakage. After application, the applicator is required to check for leaks. All leaks resulting in the deposition of insecticide in locations other than those prescribed on this label must be cleaned up prior to leaving the application site. Do not allow people or pets to contact contaminated areas or to reoccupy contaminated areas of the structure until the clean up is completed. To clean up spills, dike surrounding area and absorb with sand, cat litter or commercial clay.

Conditions of Sale and Limitation of Warranty and Liability:

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or conditions beyond the control or Nippon Soda Co., Ltd. or Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Nippon Soda Co., Ltd. and Seller harmless for any claims relating to such factors.

To the extent consistent with applicable law seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the Directions for Use when used in accordance with the directions under normal conditions of use. To the extent consistent with applicable law Nippon Soda Co., Ltd. MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER EXPRESS OR IMPLIED WARRANTIES WITH RESPECT TO THE SELECTION, PURCHASE, OR USE OF THIS PRODUCT. Any warranties, express or implied, having been made are inapplicable if this product has been used contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to (or beyond the control of) seller or Nippon Soda Co., Ltd., and buyer assumes the risk of any such use. To the extent consistent with applicable law in no event shall Nippon Soda Co., Ltd. or seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF Nippon Soda Co., Ltd. AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY,

Draft WSP language 04.24.2019

CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF Nippon Soda Co., Ltd. OR SELLER, THE REPLACEMENT OF THE PRODUCT.

This Conditions of Sale and Limitation of Warranty and Liability may not be amended by any oral or written agreement.
